Weekend Program

The Occasion

Black Mental Wellness Weekend is a grassroots community event focused on improving mental health and wellness within Chicago's Black community. This year we are focusing on Healing the Healers. This year's virtual retreat & conference will focus on supporting the mental wellness of over 100 Black mental health and wellness practitioners in their work of healing our larger community. We have gathered some of the brightest minds in Black mental health and wellness to provide our Healer's community with a multitude of ways to connect and heal. We hope that this weekend is one where you will have fun, learn, relax, and most importantly strengthen your mental well-being.

DuShaun Branch Pollard

Saturday, November 13th | 10:30 AM

DuShaun Branch Pollard has been practicing yoga for almost 15 years and fell in love with yoga because it allowed her to find peace of mind while moving her body.

As a yoga student, DuShaun noticed that in the majority of her classes she was the only black and plus sized person in the room. This inspired her to become a practitioner to bring yoga to more people who looked like her. "DuShaun is a Registered Yoga Teacher (RYT-200) through the Yoga Alliance and was certified through Bloom Yoga Studio in June of 2020.

In addition, she received her 95-hour Children's Yoga Certification from Mission Propelle in the summer of 2018 and was trained for Prenatal and Postnatal yoga with Amala School of Yoga. DuShaun is passionate about creating space for rest, for calm and helping people find tools that work for them to relieve and reduce stress.

.DuShaun previously worked in higher education, is a trained restorative justice circle keeper and is currently a community organizer in North Lawndale, a community on the west side of Chicago.

I'm not Black. Can I attend Black Mental Wellness Weekend?

Black Mental Wellness Weekend is a safe space for Black people to connect, heal, and be in community. We ask that you respect this Black only space for this weekend's events. Ways that non-black people can support is by making a donation or sharing BMWw with their networks.

What is your definition of a Black Healer?

A Black Healer is anyone who supports the mental well-being of Black people. This covers anyone who is a mental health professional, wellness practitioner, coaches, those who are in school learning to be healers, and people who are in roles that are integral to healing like teachers and community leaders.

Can I attend BMWw if I am not a Healer?

This year's BMWw sessions are geared towards people who are healers in the mental health and wellness field. This weekend is dedicated to support their healing and to pour back into healers who give so much. We ask that if you are not a Black Healer to not attend this event to honor this special space we've created for Black Healer's this weekend.

When will I get access to the virtual events?

We will send an email out at least 1 week before BMWw with all information about how to access the virtual session rooms. Please be on the lookout for an email from us. If you have any challenges, please send us an email at: info@sistaafya.com or hello@chicagoblacktherapists.com
